

MAKE YOUR OWN TOYS TOOLKIT

This week we are learning about the importance of reusing and recycling. This week's toolkits will be templates that will require you to reuse a common household item to complete the toy. The lessons for the week will include 'Did you know' facts about why cartonboard is a sustainable packaging material.

WHAT YOU WILL NEED:

Printer

Scissors

Paper

Glue

Colour Pencils

Cardboard
from Box or
Cereal Box

MAKE YOUR OWN :

Medical Kit

DID YOU KNOW:

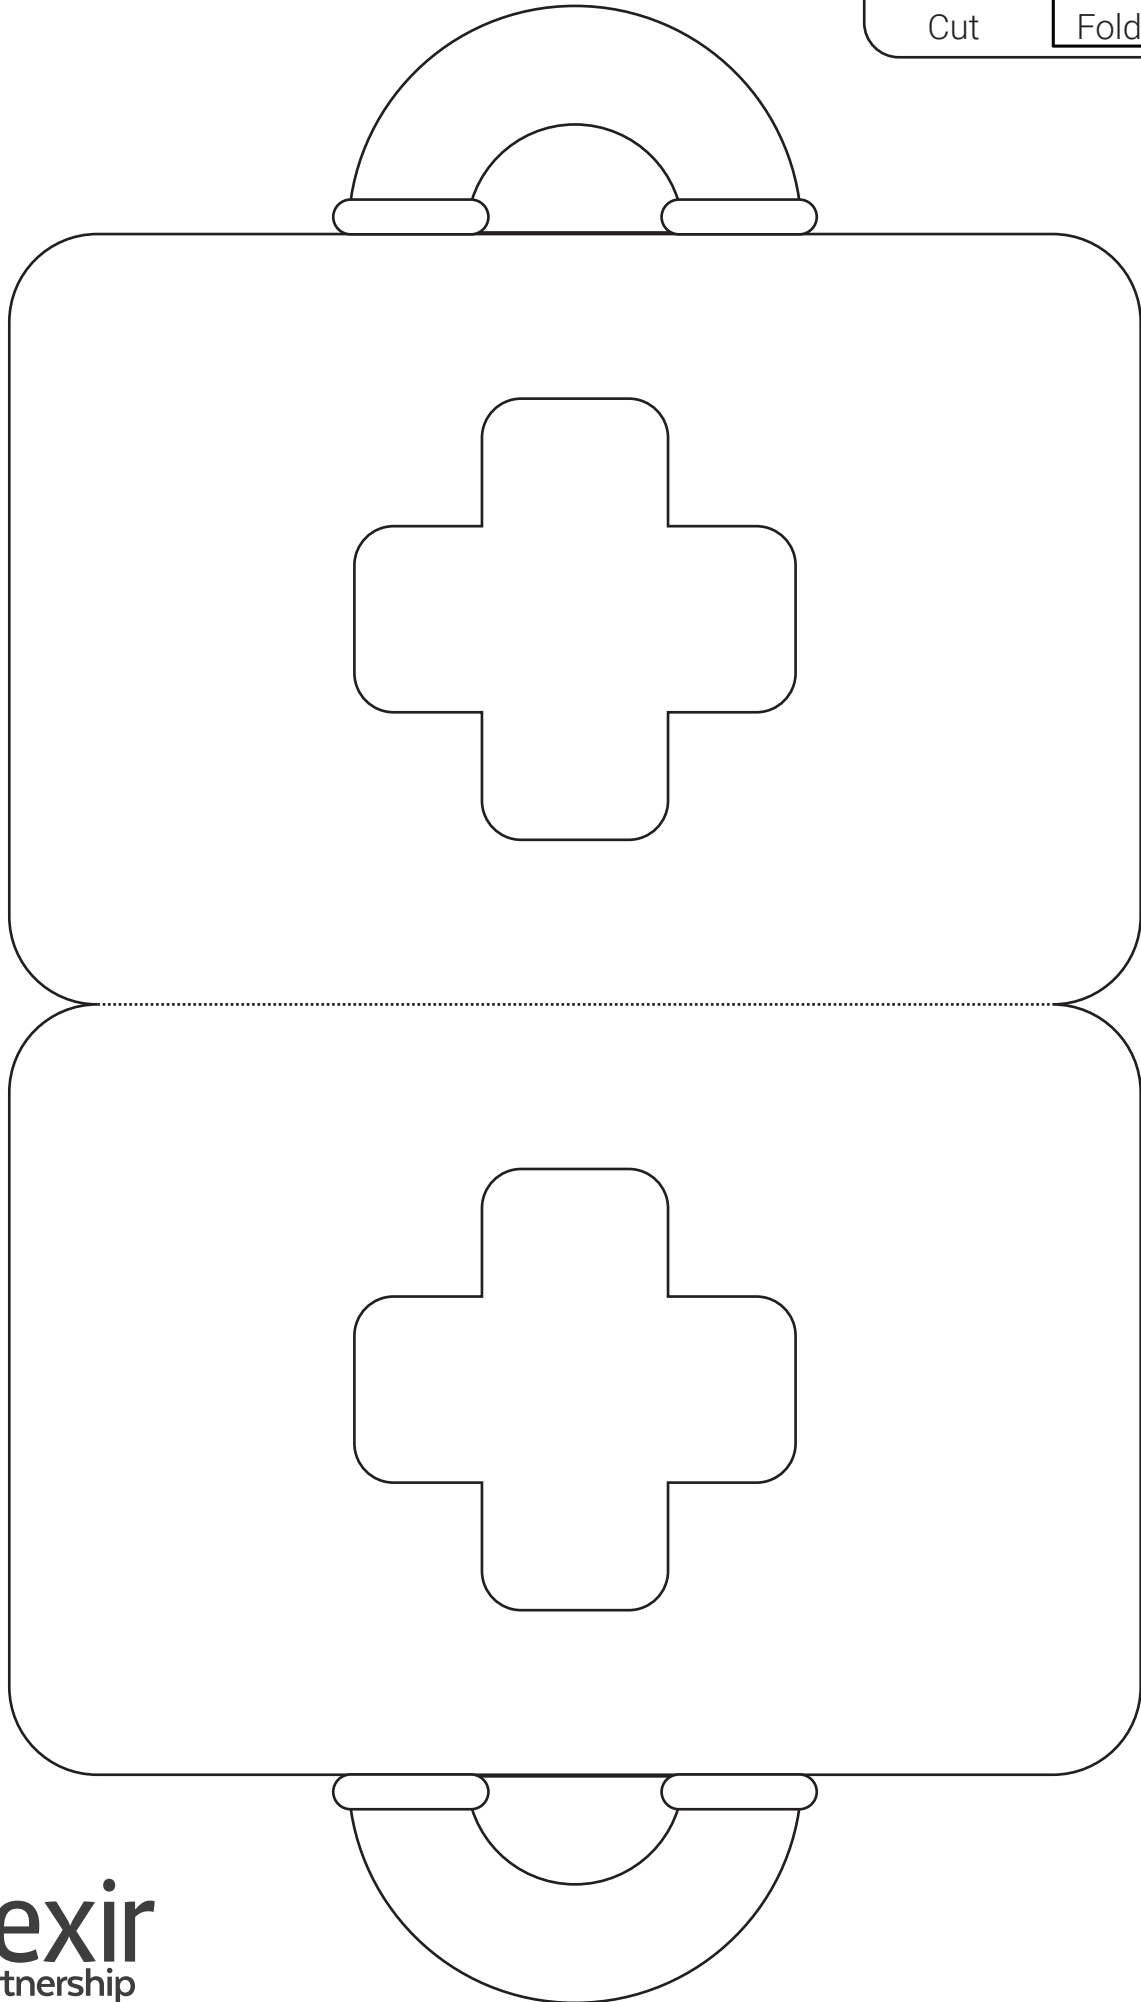

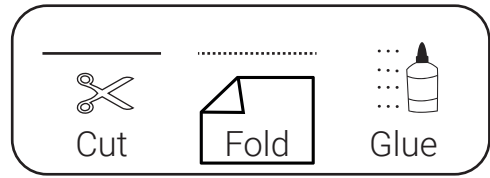

More new trees are planted every year compared to the amount of wood that is harvested.

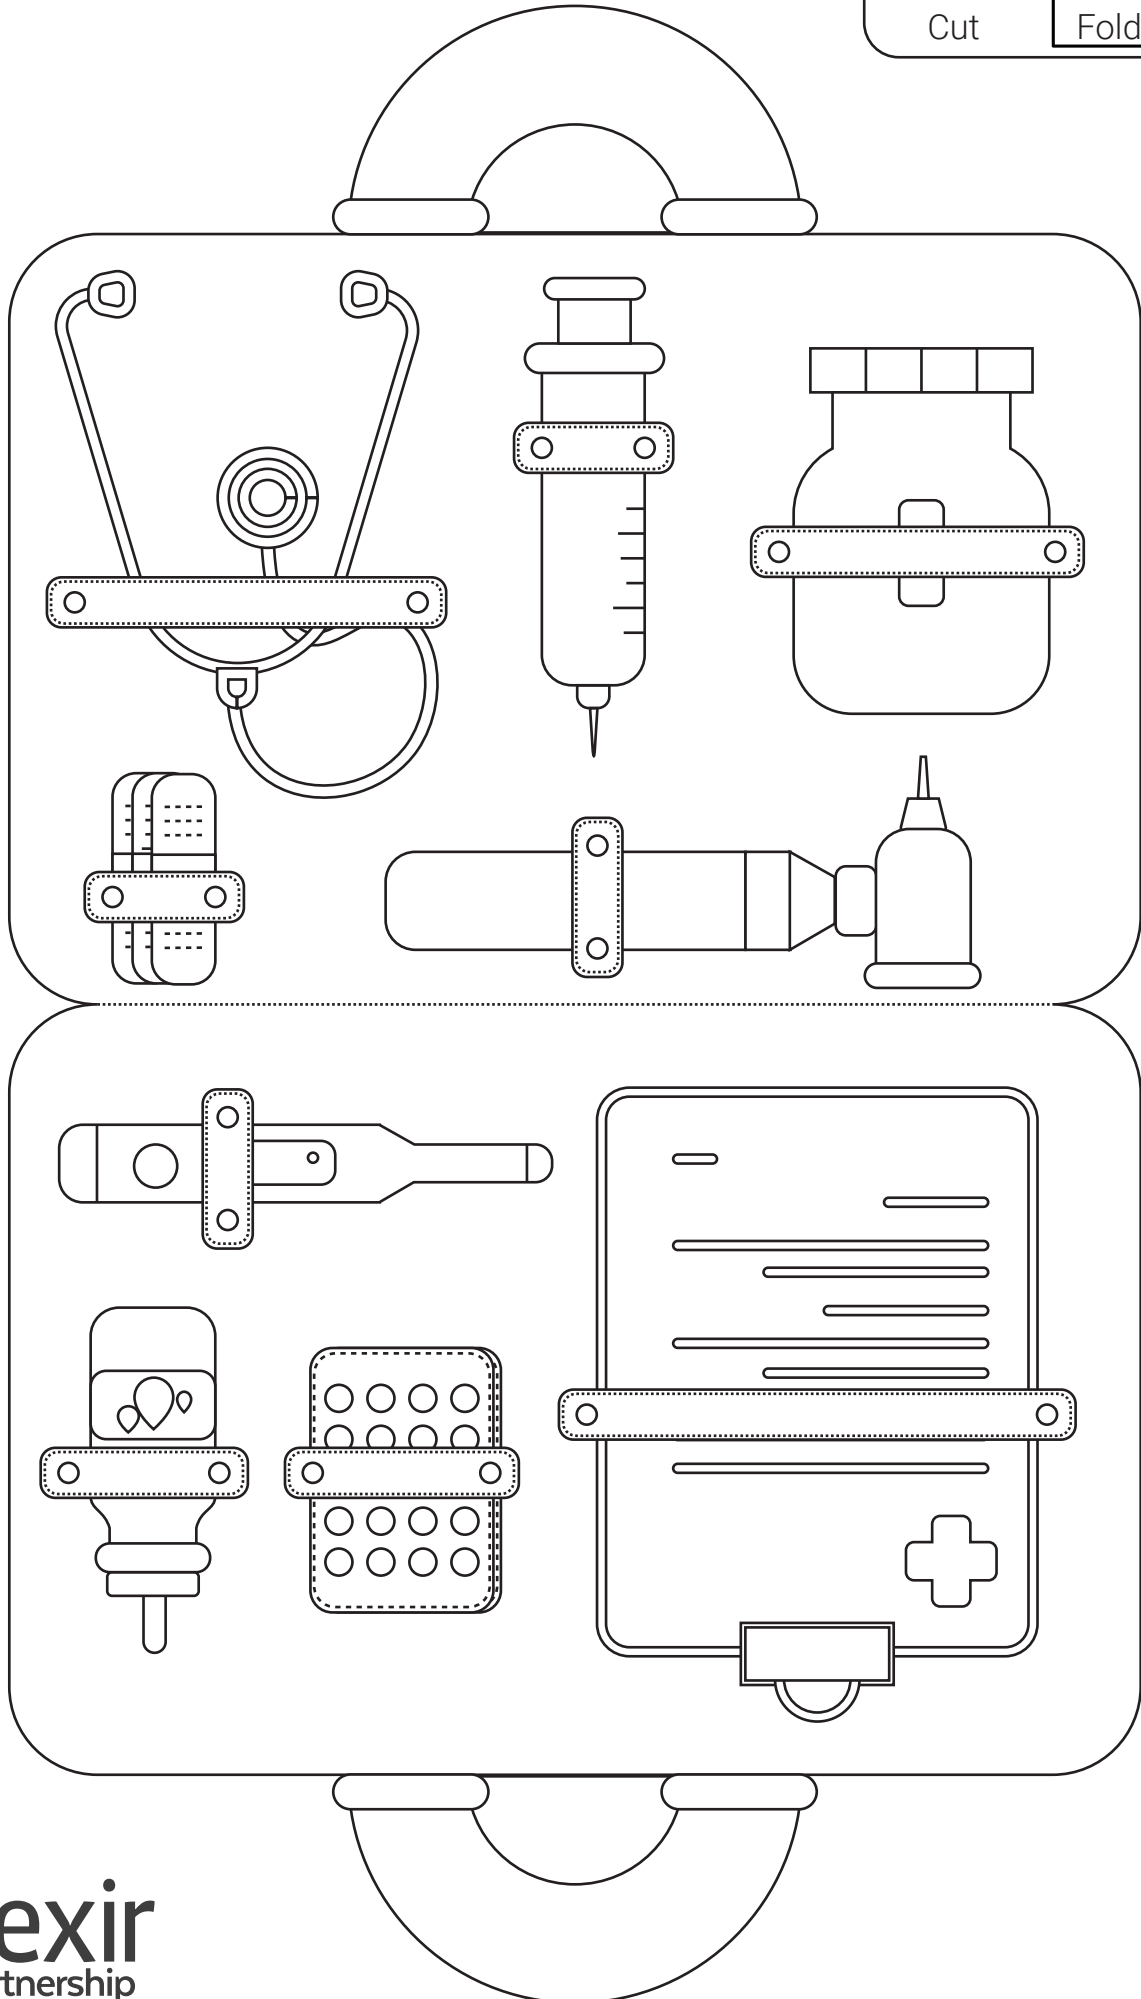

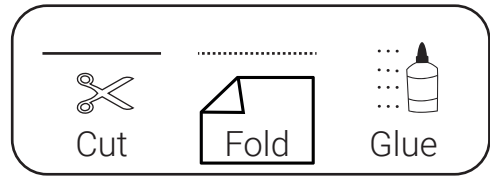

HOW TO MAKE:

You can choose whether you want to colour in your own design or use the one that has already been coloured-in by our graphic designer!

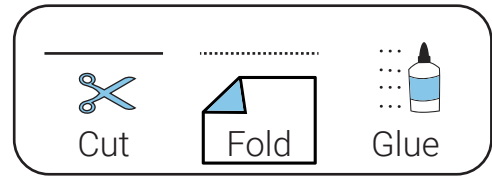

1. Print the PDF and glue to a sheet of cardboard from a box or cereal box.
2. Ensure that you glue the top of the medical kit to one side of the box and the inside of the medical kit to the other side of the box.
3. Cut out the medical kit.
4. Fold along the fold line and try to guess all of the medical equipment.
