

PACKAGING TOOLKIT

This week we are learning more about the various food packaging that you will find in your local supermarket. As the Alexir Partnership produces a range of food packaging, we wanted to teach you more about what we do. The Alexir Partnership is made up of five different businesses and each day your template and fact will be based on one of our businesses.

WHAT YOU WILL NEED:

Printer

Scissors

Paper

Glue

Colour Pencils

MAKE YOUR OWN:

Noodle Pot

2. ALEXIR CO-PACKERS FACT:

Alexir Co-Packers fill about 20 million snack pots a year.

HOW TO MAKE:

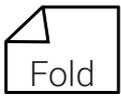

You can choose whether you want to colour in your own design or use the one that has already been coloured-in by our graphic designer!

1. Print the PDF and cut out the template and the noodle lid.
2. Fold all of the fold lines.
3. Ensure that you cut the small flaps at the top of the panda panel which will create the top for the lid to sit on.
4. Put glue on the glue flaps and stick the two side flaps onto the glue to create a square takeaway noodle pot.
5. Place the lid on top of the noodle pot.
